ABOUT ME

- ❖ **Experienced Full-Stack Developer** comfortable working in fast-paced environments, in different team sizes delivering solutions that meet requirements and deadlines. My current passion lies in development and I am always learning about all the latest and greatest tech.
- ❖ **Extensive knowledge of latest Web Frameworks** working with the likes of React, Angular and Vue, as well as a good foundation in Node and both SQL and NoSQL Databases has allowed for me to craft elegant solutions to complex problems with the intention of scalability and promoting long term solutions catered to the customer's specifications.

EXPERIENCE

NXM Labs — Full Stack Developer, MAY 2018 – SEPTEMBER 2018

I worked as full stack developer utilizing Spring, Java and Bootstrap to deliver enterprise-grade solutions that were responsive and scalable. I partook in daily standups, SCRUMS and sprints to ensure that requirements and deadlines were met. I worked both individually as well as in a team allowing me to be as efficient with my solutions as possible. I worked closely with QA and DevOps to quickly test and deliver my solutions and to get immediate feedback on them. Duties included planning, developing and testing with the aim of creating functioning and user-friendly applications.
